Word for Writers

Do you have a love-hate relationship with your computer?

You're not alone!

If you're like most, you use only a fraction of what Microsoft Word has to offer. Yet a writer's life is about getting words onto the page—the electronic page.

In this hands-on workshop, learn how to

- ❖ format a piece to be critiqued—including a trick most experts don't know;
- ❖ move through your manuscript with ease; and
- ❖ prepare an attractive book proposal and eye-catching one sheet.
- ❖ Plus, use Microsoft Word & Excel to organize your writing world.
